

**Job Opening – Staff Hydrogeologist
April 2026**

HRS Water Consultants, Inc. is accepting resumes for a full-time entry level Hydrogeologist who is passionate about solving water and environmental problems and has 0 to 2 years of professional experience. We seek self-motivated candidates with a Bachelor of Science (BS) degree (MS preferred) in geology, engineering, or earth science-related field who works well independently and on teams. Our Staff Hydrogeologists are enthusiastic about performing field work and can at times expect to spend a significant amount of time completing field work.

Experience with ArcGIS software is required. Experience in environmental science, database management, and mathematics will be beneficial. Experience in water rights and environmental consulting will be beneficial. The candidate must have excellent written and oral communication skills.

The salary range for this position is \$60,000 to \$70,000 depending on education, certifications, experience, and special skills. Other benefits include health insurance, paid time off, and a 401(k) retirement savings plan with company match. Also, HRS may offer end-of-year bonuses depending on the financial performance of the company.

HRS is a small, multi-disciplinary consulting firm established in 1981 focused on solving a variety of groundwater problems for clients. We are leaders in water resources engineering, hydrogeology, environmental contamination and remediation, water rights, numerical modeling, water well design and testing, and related consulting services in Colorado and the Intermountain West. HRS Water Consultants, Inc. is an Equal Opportunity Employer, and we value workplace diversity.

If interested in applying for this position, please send a letter of interest and resume to hrswater@hrswater.com
